Caroline Ankjær Andersen <i>s175201</i>	Daniel Greibe <i>s175207</i>	Mathias Høgsgaard <i>s175211</i>
---	---------------------------------	--

For this assignment we all participated very close to equally in the implementation and writing of the report.

Caroline had most of her focus on writing the report but also participated greatly in the implementation of the AI. Most of the time we sat together around one computer and helped each other out in how the code should be implemented (Extreme programming).

In the start **Mathias** and **Daniel** had most of their focus on the implementation of the code. Daniel and Mathias did most of the game logic and also participated in writing the report after the code was implemented.
